Global requests | Enterprise requests | US national security requests

Global requests for user information

A variety of laws allow government agencies around the world to request user information for civil, administrative, criminal, and national security purposes. In this report, we share information about the number and type of requests we receive from government agencies.

Requests by reporting period

Every six months, we report the number of requests made by governments for user information, and the number of accounts subject to those requests. Learn more about our approach to these requests and certain limitations to this report.
